

Seafood Utility

Full-time job:

IRP Meat & Seafood Co. is looking for a utility worker to work in our Seafood Department. We are looking for a utility worker to receive all fresh and frozen seafood related products. This includes quality control of all received items on a daily basis. This position will receive, monitor, and log all necessary seafood items per company specifications, as well as prepare and package customer orders using a company touch screen. At IRP you will never have to work weekends or holidays. We offer Paid-Time-Off/ holidays, 401k with match, and benefits!

Duties

- Unload trucks ensuring proper quality and standards of all supplies
- Restock fresh and frozen seafood inventories
- Restock all department related supplies
- Inventory control of all fresh and frozen seafood products
- Operate scaling machine, hand-held fish scaler, and pin-bone machine
- Maintain cleanliness and hygiene of work area and equipment
- Trash Removal
- Performing all tasks as delegated by supervisor

Work Conditions

This position is based in our food manufacturing plant. Our utility workers spend most of their day standing up and must spend extended periods of time working in cold rooms where the temperature is below 40 degrees Fahrenheit. At times, this position may also be required to do some heavy lifting as part of this job.

Shift

Monday – Friday, 5:00am – 1:30pm

Pay Rate

\$19.00/hour

Benefits

Medical, dental, vision, employer matched 401k
