FRESH ATLANTIC RED SNAPPER (skin-on, boneless, hand cut fillets)

We are partnering with the South American country of Suriname Fishermen's Co-op this week for our Atlantic Red Snapper. Located on the Northern coast of South America, this Co-op fleet makes daily trips into the North Atlantic. The Red Snapper are landed, cleaned, and air freighted over night to us. The fillets will weigh 8 to 10 oz.

HAWAIIAN SWORDFISH LOIN (skin-on, boneless)

This week we are sourcing our sword loins from Hawaii. Capt. Bobby Leroux, fishing on his F/V Galle Anne, is sending us "Markers" and "Double Markers" — swordfish that weigh at least 100 lbs. Fish of this size will have acquired excellent fat and will have reproduced several times.

FRESH ICELANDIC COD LOIN (boneless, skinless, MSC certified, 100% usable)

Tremendously versatile and cost effective, our Wild Icelandic Cod is sold boneless/skinless, which allows for a multitude of applications on the menu. Because only the top loin is used there is NO waste — this is a 100% usable product. Icelandic Cod Loin is Marine Stewardship Council (MSC) certified, making the fish not only a healthy choice, but also a sustainable choice. Icelandic Cod is a cost-effective alternative to comparable higher priced fish, such as Halibut and Chilean Sea Bass.

LIVE WELLFLEET OYSTERS (packed in 100 count bags from Cape Cod, MA)

The most famous of all New England oysters, Wellfleets are farmed in the protected inter-tidal flats of Wellfleet Harbor. The Cape's lack of freshwater guarantees a profoundly briny flavor in its oysters.
