Mangalitsa Premium Pork by Møsefarm

For over 180 years, Mangalitsa has been a hidden gem, a secret closely guarded by the Royal House of Hapsburg who created the breed. Sought after for its burgundy red meat, voluminous ribbons of silky white marbling, and decadent flavors, this breed alone delivers instant umami provided by its own heart healthy, monounsaturated fat containing a full spectrum of Omega fatty acids that are naturally free of trans fats. This is how pork was meant to taste.
