## **BEEF COULOTTE 'HACIENDA' STEAKS**

The coulotte is the muscle that rests on top of the sirloin. Well marbled and tender, these steaks provide good plate presentation with a consistent rectangular shape. They will eat every bit as good as more well-known cuts from the middle of the animal. Chef's often consider coulotte steaks the best kept secret in the animal. We are featuring our 'Hacienda' coulotte steaks - a trim that keeps a 1/4 inch picture frame of fat on the side, similar to a striploin.

## **NELLO'S ALL-BEEF HOT DOGS**

## **BEEF TENDERLOIN PETITE FILET STEAKS**

A benefit of dealing direct with a cutter like IRP is that it affords you the chance to purchase different options when it comes to items like Filet Mignon. We cut many center-cut 'barrel' filet mignons. As we work our way down towards the tail, we produce a cut unique to us, perfect for 3/4/5 oz portions. Cut from the more narrow tail section, these filets display good height on the plate, even at their small size. We call this lineup our 'Petite Filet' program. These gems are great on their own, as part of a surf-n-turf or even cross-utilized with an entree salad. Take advantage of this sharp price offer and stock up before the holidays.
