## **LARGE ECUADORIAN MAHI FILLETS (cut from 20 lb and up fish)**

The Ecuadorian Mahi season has just started and prices are once again becoming attractive. We target 20 lb. and up fish, which provides the best portion yields of thick, uniform cuts. The fish of this size also store higher volumes of fat, producing a moist and very flavorful finished product. We will be bringing the fish in daily. Now is the time to think about Mahi as a menu item. Historically, Mahi is at it's best from now until the late Spring, with favorable pricing and great quality.

## **FRESH LOCAL MONKFISH LOIN (1-2 lb loins, skin-off, boneless)**

We are sourcing beautiful large Monkfish Loins (fillets) from the cold, crisp waters of the Georges Bank. One of New England's newest and finest ground fishing vessels, The Nobska, is landing beautiful fish that are processed by hand here at our facility.

## **U/10 CT. DRY SEA SCALLOPS (U.S. Georges Bank, packed to spec.)**

The scallop industry is highly regulated and is considered one of the most sustainably managed fisheries in the United States. This is the time we see the most abundant catches and excellent pricing of U/10 scallops caught on or near the Georges Bank Fishing grounds, in the northeast Atlantic, close to New England and the Canadian Maritimes.

## **CREEKSTONE USDA PRIME BONELESS STRIPLOIN STEAKS (10,12,14 & 16 oz)**

Did you know that less than 2% of all beef raised in the United States grades out to a 'Prime' marbling score? Did you know that Creekstone's packing house was designed by world renowned professor and animal welfare expert, Temple Grandin? Did you know that with this special, you have the ability to serve some of the finest beef in the world? Tender muscle-high flavor-hand-cut, portioned striploin steaks from IRP. Take advantage of this incredible price-it won't last long.

## **USDA CHOICE BEEF FLAT IRON STEAKS (4, 6, 8 & 10 oz available)**

The 'flat iron' gets its nickname for its rectangular shape. The muscle is actually called the top blade and is found in the shoulder of the animal. Animal scientists state that this is actually the second most tender muscle in the animal, after the tenderloin. Plenty of marbling ensures flavor, along with that coveted tenderness. These steaks are great on their own or used in bistro or entree salad applications. The versatility of sizes offered by IRP also make it perfect for duos. For a low cost/high value feature, try the flat iron with IRP scallops.

## **PRIME RESERVE BONELESS PORK CHOPS (5, 6, 8, 10 & 12 oz available)**

We understand that this time of year can call for some lower food cost items. With that in mind, consider this week's pork feature. 'Prime Reserve' is IRP's label of premium enhanced pork chops - a process in which flavor rich pork trim is reintroduced back into the muscle. The result is a pork chop that will not dry out when cooked at high heat. Prime Reserve has long been a favorite of many IRP customers 'in the know' because of its consistent quality and low price point. Check out this week's feature - serve a 1/2 pound pork chop for less than \$3 on the plate. How's that for a post-holiday food cost saver?

## **CREEKSTONE 'MASTER CHEF' BONELESS RIBEYE STEAKS (10, 12 & 14 oz)**

Creekstone Angus Beef is Indian Ridge's premier single-source Black Angus beef program, allowing you to serve consistently great eating steaks. The cattle are raised in the mid-west and harvested at a single packaging house, which insures consistency of quality and muscle size. 'Master Chef' denotes Creekstone's top tier of USDA choice marbling. Boneless ribeye 'Delmonico' steaks offer the perfect combination of flavor and tenderness, making them the traditional favorite of many steak connoisseurs.
