## Seafood Specials April 24th through April 28th

### **Copper Shoal Farm Raised Red Drum Fillets- Skin On PBO**

Redfish has been a highly prized game fish in Louisiana for generations but has not been readily available commercially. It is now being raised on the coast of Texas using the latest aquaculture technology and is free of antibiotics. The fillets will average 1-2#. The flesh is firm and moist with a sweet and mild flavor.

### **U15 ct. Dry Sea Scallops**

These beautiful gems come to us in catch weight 40# sacks. We then sort, re-grade for sizing, remove any shells and/or splits, then pack in 10# cloth bags for your convenience.

### **East Coast Day Boat Large Halibut Fillets- Boneless Skinless Fillets**

We are targeting the 50-125# fish coming from the boats that are fishing daily off the coast of Nova Scotia and Newfoundland. These fish will produce thick large fillets with very good fat content.

### **Silver Streak Hybrid Striped Bass Fillets**

This is a great alternative to wild rockfish. No antibiotics or growth hormones added. The flesh is firm and fish of this size are full flavored due to high fat content. The fillets will average 8- 10oz each.
