CHILEAN SEA BASS FILLET (Boneless, Skinless)

This wonderful fish is prized for its snow white flesh and buttery taste — it has become a very popular menu item. We are cutting 15 kilo and larger fish that will produce large thick fillets that will yield very well for portioning.

DUCKTRAP RIVER OF MAINE SMOKED TROUT FILLET (3 lb catch weight box)

Ducktrap River of Maine smoked rainbow trout is the most exquisite of all smoked fish. The fillets are gently smoked to retain their natural moisture and texture. Their distinctive mild taste makes Ducktrap trout the ideal selection for introducing the pleasures of smoked seafood to an uninitiated palate.

HAWAIIAN MAKO SHARK LOINS (skin-on, boneless)

The Hawaiian boats are starting to land very high-quality fish. With boats coming in all this week, we expect to have a very good supply. Mako shark provides a very good eating, lower cost alternative to the more expensive grilling fish. Mako is full flavored with a meaty texture and will stand up very well to marinades and sauces.

LIVE WELFLEET OYSTERS (packed in 100 count bags from Cape Cod, MA)

The most famous of all New England oysters, Wellfleets are farmed in the protected inter-tidal flats of Wellfleet Harbor. The Cape's lack of freshwater guarantees a profoundly briny flavor in its oysters.

VEIN-END BEEF STRIPLOIN STEAKS (6 oz, frozen)

Take advantage of incredible value. We cut many center-cut striploin steaks from premium USDA beef. This leaves us with these “end-cut” or “vein-end” striploin portions. The quality of muscle is the same as a center-cut, the difference is a line of coarse marbling that runs through the eye of the steak. These are perfect for outings, small-plates, or any application where a quality cut of beef is needed at a less expensive price point.

WAGYU BEEF BRISKETS (3/5 Grade)

Always one of our most popular feature items, Wagyu briskets offer a unique combination of buttery texture and intense marbling flavor. Any dish utilizing brisket will be kicked up several notches by using this premium product. Wagyu is a breed of cattle native to Japan, and they have become world famous for their consistent marbling and tenderness. Brisket provides an affordable option for your establishment to utilize and market the Wagyu name and mystique.

NELLO 6-1 MEXICAN STYLE CHORIZO HOT DOGS

Try our locally sourced skinless 6-1 Mexican Chorizo Dogs, which utilize a classic recipe including ground chilies, coriander, cinnamon, garlic, and paprika. What differentiates them from regular hot dogs is the flavor-forward profile as well as the ability to utilize unique and different ingredients as toppings and sides. Delicious with a sweet corn salsa or chimichurri sauce for a fresh summertime menu option.

PEAR APPLE TARTS (10", 2 per case)

Delicate tart shells lined with a fine layer of almond frangipane and sliced apples and topped with glazed pear halves, this refined tart offers the richness of dessert while still providing fresh summer flavors. This item is the perfect way to top off any evening or indulge at an outdoor bunch.
